Africa Leadership Study

Africa  
Leadership  
Study A SEEDBED  
RESOURCE

[AfricaLeadershipStudy.org](http://AfricaLeadershipStudy.org)

# Why this Research Matters

- **Growth of the African Church**
- **Lack of study of African leadership trends**
- **There is significant need to understand the leadership dynamics in Portuguese-speaking and French-speaking Africa**

# Research Overview

## Understanding the project

- **8041 survey respondents**
- **24 leader profiles and 24 organizational profiles**
- **Insight from three countries (Angola, CAR and Kenya) and three languages (English, French, Portuguese)**

# The ALS Team

## Understanding the ALS Working group

- **Scholars**
- **Advisers**
- **Interdisciplinary**
- **Collaborative**

# Scope of The ALS Research

# 3 Influential groups of leaders

Africa  
Leadership  
Study A SEEDBED  
RESOURCE

[AfricaLeadershipStudy.org](http://AfricaLeadershipStudy.org)

# Insight 1

- **Pastors are very influential among Christians in Africa.**

## STAT

"Who has influenced you most?"

#1 Answer:  
Pastors

Angola: **35.3%**

CAR: **50.2%**

Kenya: **55.8%**

# Insight 2

- Churches play a variety of strategic roles in the lives of African Christians and communities.

## STAT

Churches are providing significant help to believers.

Christians answered that their church "provided ethical teaching for all of life"

Angola: **63.9%**

CAR: **68.3%**

Kenya: **77%**

## STAT

Of the non-clergy leaders surveyed, people identified them as having the greatest influence in the following areas:

Church leadership development:  
**24.5%**

Evangelism:  
**20%**

Education:  
**13.5%**

Homes and Families:  
**6.7%**

# Insight 3

- **Non-clergy leaders also play strategic roles in a wide variety of areas.**

# Insight 4

- **Women, who make up 60% - 70% of the African church, are seen as strategic to the strength of the church, but are often under-acknowledged and under-supported.**

## STAT

While respondents indicated that churches provided opportunities for women in leadership:

Angola: **61.5%**

CAR: **52.3%**

Kenya: **72.1%**

only **36.7%** of the non-clergy leaders and only **6.1%** of pastoral leaders referenced in the study across all three countries were women.

**6**

# Insight 5

## STAT

Overall **56%** of parachurch organizations in all 3 countries have either national or international impact.

- **African-led parachurch Christian organizations are central to evangelism, discipleship, and social engagement.**

# Insight 6

Ability and opportunity to work interculturally /  
interethnically

- **African Christian leaders minister within ethnic and interethnic settings where intercultural skills, competencies, and commitments are crucial to success.**

## STAT

When our respondents were asked to name a pastor or non-clergy leader with most impact, a majority in Kenya and Angola named someone from their own ethnic group, while a majority of respondents in CAR named someone from an ethnic group different than their own.<sup>1</sup>

## STAT

Roughly **8 out of 10** respondents in the CAR had cell phones, with **9 out of 10** in Angola and Kenya<sup>2</sup>, and with pastors in all countries at even higher rates. Roughly **1/3** of our Angolan and Kenyan respondents indicated they owned computers, with **less than a sixth** in CAR – and with pastors in all three countries owning computers at lower rates than other respondents. Less than a 1/3 of CAR respondents (**31%**), less than 1/2 of Angolan respondents (**44%**), and over 1/2 of Kenyan respondents (**55%**) indicated that they had access to the internet.<sup>3</sup>

# Insight 7

**Ability and opportunity to navigate a world increasingly dependent on technology.**

- **African Christian leaders are increasingly part of a “wired” world, although with marked constraints.**

# Insight 8

**Opportunity and commitment to taking advantage of mentoring relationships.**

- **Mentoring is central to the development of leadership in Africa.**

## **STAT**

**More than ½** of respondents who named a key leader as being particularly good at leadership development, identified mentoring as one of the important tools that leader employed in their leadership development work.

## STAT

From the interview results, it appears that most leaders have been shaped by some combination of high quality formal education along with other forms of informal and mentoring relationships – with the combination being more important than any single one of these alone.

# Insight 9

**Formal and informal education are key to leadership development.**

- **Formal education holds a key role in leadership development but it is not the only avenue.**

# Insight 10

**Opportunity and skills in relational networks at the national, regional and global levels.**

- **African Christian leaders and organizations achieve success through relational networks.**

## STAT

A surprising proportion of leaders with greatest impact have lived and/or studied abroad in places such as Brazil, Canada, France, India, Italy, Portugal, UK, and USA and draw on global relational ties on behalf of strategic local ends.

**Three important areas  
that are receiving varying levels of focus . . .**

**Africa  
Leadership  
Study** A SEEDBED  
RESOURCE

[AfricaLeadershipStudy.org](http://AfricaLeadershipStudy.org)

## STAT

58% of respondents in Angola, 57% in CAR, and 79% in Kenya indicated that their own congregation focused either "a good bit" or "very much" on youth leadership development. Africa, where the median age is approximately 20, is experiencing a "youth bulge."<sup>4</sup>

# Insight 11

## Ministry to youth.

- African initiatives that focus on youth are strategic.

# Insight 12

## Integration of Faith and Politics

- **Many African Christian leaders are ambivalent about politics, but recognize that much is at stake, and thus often engage the political arena on behalf of the common good.**

### STAT

In Kenya **less than 18%** of respondents indicated that their church provided no education on political realities, with almost half saying their churches provided either "a good bit" or "very much."

# Insight 13

## Outreach to Muslims

- **While most Christian churches, organizations, and leaders have minimal focus on relating to Muslims, a minority are doing an amazing job in this strategic area.**

### STAT

Around **10%** in CAR and **15%** in Kenya indicated their churches did “very much” in the area of Muslim outreach.

**Areas of strength and need  
for us to consider and address together . . .**

**Africa  
Leadership  
Study** A SEEDBED  
RESOURCE

[AfricaLeadershipStudy.org](http://AfricaLeadershipStudy.org)

# Insight 14

## Committed Readers

- **Many Africans do read books, especially books that are motivational, practical, and oriented towards helping readers achieve success.**

### STAT

**16.7%** from Angola, **20.1%** from CAR and **21.3%** from Kenya have read **more than 10** books in the past 12 months. In the US, the average number of books read per year is **12.**<sup>5</sup>

# Insight 15

The role of the Bible strongly reaffirmed

- **The Bible as the Word of God is important in the lives of African Christians.**

## STAT

**53.5%** from Angola, **55.6%** from CAR and **55.4%** from Kenya claimed to read their Bibles daily. The next closest category was frequency of newspapers or magazines with **10.5%** from Angola, **12.3%** from CAR and **34.5%** from Kenya reading them daily.

# Insight 16

## Equipping and empowering African Christian authors

- **In Africa there is a strong need for local Christian authors.**

**STAT**

**42%**

identified a favorite author that was African

**9.5%**

identified a favorite author that was both African and Christian

**57%**

identified a favorite author that was Christian

Diagram represents all 3 countries data combined.

Connect to the Africa Research Study at [AfricaLeadershipStudy.org](http://AfricaLeadershipStudy.org)

# Insight 17

## STAT

Over **25%** of respondents in Angola and CAR indicated that there was not a Christian Bookshop nearby, whereas only **12%** of respondents in Kenya indicated the same.

- **The need for local Christian authors is especially the case in Francophone and Lusophone Africa where it is much more difficult to acquire knowledge about leadership realities.**
